WHY BUYERS WORK WITH US

Trust built early, from field to export.

Boosnur Genetics supports buyers looking for practical, requirement-led seed production programs with clear communication, field-level coordination, and dependable export preparation.

Davangere, Karnataka Base

Located in an active agricultural region with access to grower networks and field-level coordination.

Contract Seed Production

Production begins after understanding crop, variety, quantity, timeline, quality expectations, and destination market.

Export Documentation Support

Coordination for export preparation, buyer communication, and shipment documentation requirements.

Field Monitoring

Crop-stage updates and practical coordination with growers from planning to dispatch.

OUR PRODUCTION APPROACH

Stage	What We Coordinate
1. Requirement Discussion	Crop, variety, quantity, seed standard, destination, and expected timeline.
2. Production Planning	Growing window, isolation needs, acreage, and grower availability.
3. Farmer Network Selection	Grower alignment according to program feasibility and buyer expectations.
4. Crop Monitoring	Field progress, crop health, and important production stages.
5. Quality Inspection	Seed handling, cleaning, grading, packing, and quality expectations.
6. Export Coordination	Documentation, shipment communication, and buyer updates through dispatch.

CROPS WE PRODUCE

Vegetable seed programs planned to buyer needs.

Crop selection, acreage, isolation, and production timeline are discussed before each program begins. Availability is shown honestly as request-based because contract production depends on buyer requirements and seasonal feasibility.

	Tomato Seeds Hybrid or OP programs according to requirement.
	Chilli / Hot Pepper Seeds Programs planned around buyer-specified pepper requirements.
	Bell Pepper / Capsicum Seeds Production feasibility reviewed by variety, season, and quantity.
	Buyer-Specified Crops Custom OP or hybrid vegetable seed programs on request.

Crop	Availability	MOQ
Tomato	On Request	Discuss by program
Chilli / Hot Pepper	On Request	Discuss by program
Bell Pepper / Capsicum	On Request	Discuss by program
Buyer-Specified Crops	Feasibility Review	Variable

DOCUMENTATION & COMPLIANCE

IEC / Export Registration	GST & Commercial Documents	Phytosanitary Coordination	Seed Testing Support
Export-ready business documentation and buyer onboarding support.	Invoices, packing details, and commercial records for shipment coordination.	Plant-health documentation support based on destination requirements.	Testing and quality checks can be coordinated as required by the buyer.

WORKING PRINCIPLES

We believe trust is earned through consistent execution, transparent communication, and dependable delivery.

Transparent communication	Field-level monitoring	Buyer-first planning	Practical production commitments	Long-term partnerships
